

What we can do for you, your business and your industry

Ai GROUP ENVIRONMENT AND ENERGY CAPABILITY STATEMENT

Australian Industry Group

The Australian Industry Group (Ai Group) is Australia's leading industry association. Ai Group member businesses employ around 750,000 people in a broad range of industry sectors including: manufacturing, engineering, construction, defence, ICT, call centres, labour hire, transport, logistics, utilities, infrastructure, environmental products and services and business services.

Our members operate business of all sizes throughout Australia and employ almost half a million people. Ai Group provides practical information, advice and assistance to help members run their businesses more effectively and to become more competitive on a domestic and international level.

To find out more about the benefits of Ai Group membership visit www.aigroup.com.au.

Act

Ai Group is one of the most influential industry advocacy groups in Australia. We ensure your views are represented to all levels of government to deliver real outcomes that improve the competitiveness, profitability and growth of your business and the broader economy.

Ai Group acts as industry's voice to government on environment and energy issues including (but not limited to):

- Representation and advocacy of member interests to governments
- Developing written submissions relating to proposed environment and energy policy amendments based on member views
- Managing focus groups to gather industry perspectives on a range of topical issues such as energy, water, waste and sustainability
- Directly influencing Government environmental policies through our environment working groups in New South Wales, Queensland, South Australia and Victoria
- Keeping you informed of important developments in environment and energy
- Facilitating forums which provide you with direct access to high profile speakers

Assist

Practical information, advice and assistance on environment and energy related issues are delivered through our Energy and Sustainable Business Help Desk. Members are kept informed on the latest news in environment and energy through our monthly electronic newsletter Sustainable Business News.

Ai Group also provides members with updates on key environment and energy issues impacting on businesses through the BIZassist@aigroup.com.au suite of products and services including:

- BIZassistManual
- BIZassistBriefings

Advance

Ai Group is there when you need us most. Our professional Environment and Energy team offers a range of consulting services to assist members with their environmental challenges. Our advisers are not only technically qualified but have an excellent working knowledge of your industry enabling them to identify and tailor solutions to the specific needs of your business and industry sector.

Ai Group specialises in the following consulting and training services:

- Environmental Management System (ISO 14001:2004) development and gap analysis
- Sustainability assessments
- Environment compliance audits
- Strategic advice and assistance with environment legal compliance issues
- Energy contract negotiations

Ai Group also offers a range of environment public and on-site training to advance companies understanding and response to their environmental responsibilities and emerging environmental issues.

Ai Group provides a range of government funded programs to advance businesses' environmental performance.
