

Sustainable transport solutions

Jill Lewis
Manager
ATA NSW

... Unlock the full potential of your transport operation.

The age of the
Dirty, overloaded
truck is finished.

Our industry
is now cleaner
and greener.

... Unlock the full potential of your transport operation.

The trucking industry is taking environmental action across a number of areas, with benefits to both trucking businesses and the wider community.

... Unlock the full potential of your transport operation.

Major areas of change are:

- industry initiatives;
- technological progress; and
- government regulation and industry adoption.

... Unlock the full potential of your transport operation.

Industry initiatives

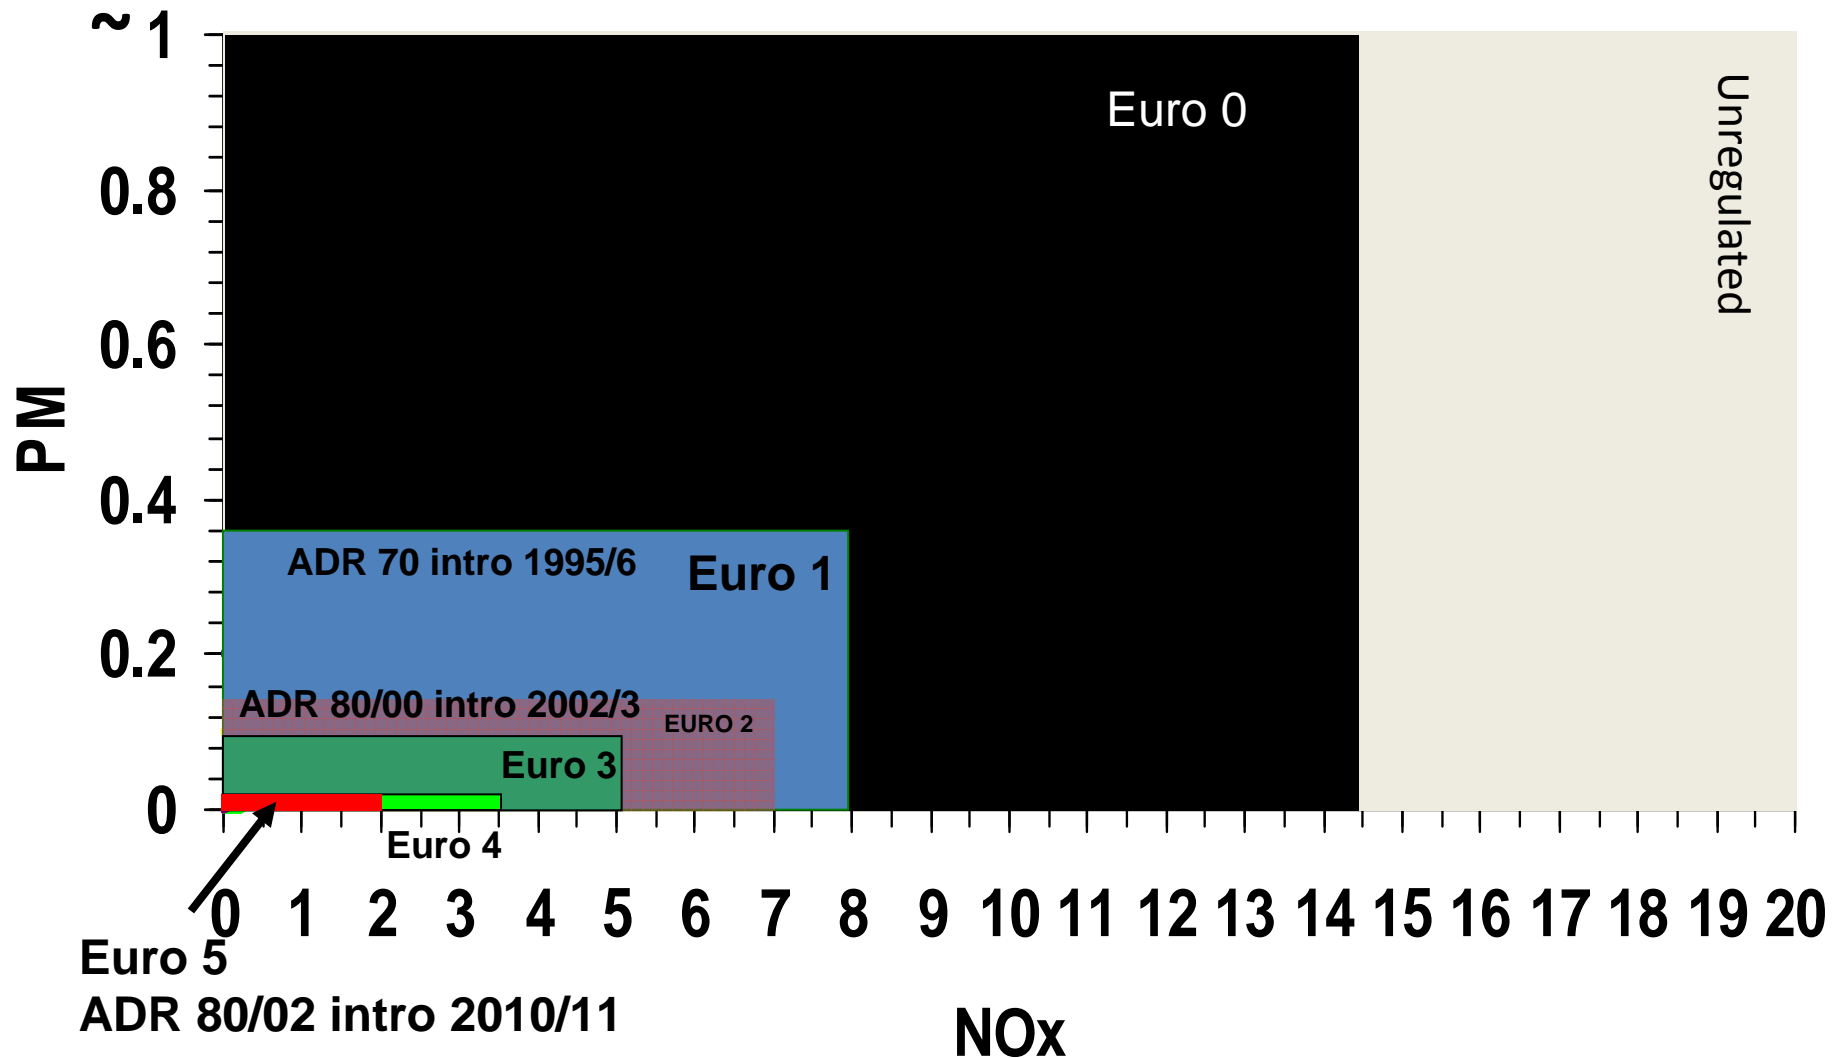

Environmental Best Practice Guide

- gives guidelines for businesses of all sizes on fleet management, policy development and human resource training.

... Unlock the full potential of your transport operation.

Technological progress

... Unlock the full potential of your transport operation.

Technological progress

Fleet and productivity improvements:

- vehicle age;
- fuel efficiency; and
- high productivity vehicles.

... Unlock the full potential of your transport operation.

Government measures

CPRS

- market based mechanism which provides correct signals and seeks change at the lowest cost;
- can be accommodated in business operations.

... Unlock the full potential of your transport operation.

Government measures

NGERS:

- emissions reporting for large consumers/producers of energy;
- ATA Operational Control Scorecard, developed to aid industry compliance.

... Unlock the full potential of your transport operation.

Thank you.
