

ENVIRONMENTAL SOLUTIONS FORUM

Is your company seeking to reduce exposure to rising energy costs?

Environmental solutions forum – Energy Efficiency Brisbane

When: Thursday 23 February 2012
9.30am-11.30am

Where: Christie Conference Centre
320 Adelaide Street
Brisbane

Cost: **FREE**

RSVP: 20 February 2012

This **FREE** forum aims to provide companies with practical information on the issues and opportunities that need to be considered when looking at securing alternative energy supplies and reducing peak demand. In addition the Forum will also discuss options to reduce your energy use and reduce operating costs.

Are you:

- Looking to reduce your energy use?
- Looking to lower your peak demand and avoid increased charges?
- Considering Lean Thinking?
- Requiring support to develop your business case?
- Seeking advice on current incentives?
- Seeking assistance with funding applications?

This **FREE** forum will look at
alternative energy supplies and
energy efficiency opportunities.

Speakers:

- **Energy Savings – Make It Happen Now. Ai Group**
This presentation will outline the measures companies can take to reduce energy use, and services and incentives available to businesses.
- **Energy Conservation and Demand Management Program. Energex**
This ENERGEX program facilitates targeted EC&DM solutions. This presentation will outline the reasons behind the program and how it can facilitate feasibility studies and provide support payment for your energy savings projects.
- **Managing your Carbon Footprint. The University of Queensland**
How do you assess options available to your business to reduce your carbon footprint? How do you know determine which are most cost effective? You will learn how a Marginal Abatement Cost Curve (MACC) answers these questions and easily informs smart investment decisions within any organisation that wishes to reduce its carbon footprint.
